Prague, March the 9th

Our dear partners and friends,

we would like to thank you very much for your visit during Ambiente fair and for the placed orders.

Your confidence is even more precious due to the fact that the situation on giftware markets is not easy in the current time. We may understand the intention of some producers to concentrate or to switch partially or completely the production for stemware. We would like on the opposite to keep engaged us in developing new and new unique giftware collections and offer even more kinds of additional interesting decorations.

We were pleased by your positive reaction especially for the premium quality of our original products.

We made quite large investments so you can get the product which is elegant, functional and with the highest possible quality in the glassware field.

You have been helping us with this task and together we succeeded – thank you for this!

We will keep continue in this trend and your opinion is for us the most important.

Some persons from our team have already been in touch with you for more than 20 years and believing for future we will.

We pride ourselves on the clear and transparent company policy, we keep our deals and agreements, we respect you and cherish you.

Our company BOHEMIA TREASURY have been established in 2008 and is purely Czech one – so please be aware WE ARE BOHEMIA.

We have received today's letter from Mr. Cerva which you probably got as well and let us express our full agreement with his statement of misusing the brand Bohemia for fake products not only from China. We have also seen such products marked by Bohemia labels and not being produced for Bohemian companies. This is really unfair competition also against us. Of course it is very common that Czech located trading company orders the production of their own products for example in Germany, with their Bohemia labels on and informs about it clearly their customers.

This procedure is also common with other Czech companies and even some of Czech producers are working like that especially from the reason of getting better quality and extra capacity.

Thank you once again for expressed trust.

Sincerely

Your Bohemia Treasury team
